Still in operation today, Britain's oldest tea merchant has developed this famous tea blend and offers it again.

HuKwa TeaHU-KWA is a uniquely crafted black tea from the island of Formosa and is considered by many tea connoisseurs to be the benchmark against which all other Lapsang Souchong style teas are measured. Distinctive with its smoky flavor and aroma, the dry leaves have an almost amber-brown coloration. When brewed, HU-KWA tea produces a deep red liquor and a surprisingly mellow cup.
